

A Note From Dr. Cobbs
July 22, 2019

Greetings, Healey Family!

Today marks the beginning of my third full week in our school. Over the past weeks, I have met with dozens of educators, community members and families and have identified a common theme; Healey is a school with exceptional potential. Each stakeholder highlighted the skilled and compassionate teachers that serve our children as well as an overwhelming commitment to move the Healey to even greater status in our community. To create a safe, welcoming and inclusive environment guided by clear vision, consistent communication and well established routines and systems. This sentiment has been echoed by my supervisors and was well stated last spring as I began the interview process. My charge is clear and I look forward to partnering with you this academic year.

Warmly,

Dr. Cobbs
